

# National Athlete Ekin Ereke, Supported by Akfen Construction, Becomes U23 Turkish Champion in Cycling

**Supported by Akfen Construction, Ekin Ereke, an athlete from the National Cycling Team and Büyükçekmece Municipality, became the U23 Turkish Champion at the Mountain Bike Turkish Championship organized by the Turkish Cycling Federation in Erzurum from July 19-21, 2024. Ekin Ereke received the championship trophy from Erzurum Provincial Director of Youth and Sports, Levent Çakmur.**

In the races held under the supervision of the International Cycling Union (UCI), Ekin Ereke not only became the U23 Turkish Champion but also secured second place in the XCC Short Track Short Course Race and third place in the XCE Eliminator Elimination Race.

Supported by Akfen Construction, Ekin Ereke, an athlete from the National Cycling Team and Büyükçekmece Municipality, became the U23 Turkish Champion at the Mountain Bike Turkish Championship organized by the Turkish Cycling Federation in Erzurum from July 19-21, 2024. Ekin Ereke received the first-place trophy from Erzurum Provincial Director of Youth and Sports, Levent Çakmur.

In addition to becoming the U23 Turkish Champion, Ekin Ereke also achieved second place in the XCC Short Track Short Course Race and third place in the XCE Eliminator Elimination Race in the races held under the supervision of the International Cycling Union (UCI).

Akfen Construction, which supports various projects and athletes to develop the sports habits of young people and achieve success on national and international platforms, continues its mission to contribute to the careers of young athletes as an important part of its social responsibility understanding.

## **About Akfen Construction:**

Established in 1986 and initially focused on contracting works, Akfen Construction has transformed its activities into an investor identity over time. The company has focused on Public-Private Partnership (PPP) projects, which provide long-term and predictable cash flow and constitute a significant portion of its operations and revenues. Today, while Akfen Construction continues to undertake primarily hospital projects domestically and internationally, its portfolio also includes student dormitories and other real estate projects for investment purposes.
